

Applications:

- Landscaping
- Forestry
- Plantations
- Tree nurseries

Functions:

- Lifting and moving logs
- Loading trucks
- Removing debris on building sites whilst leaving soil

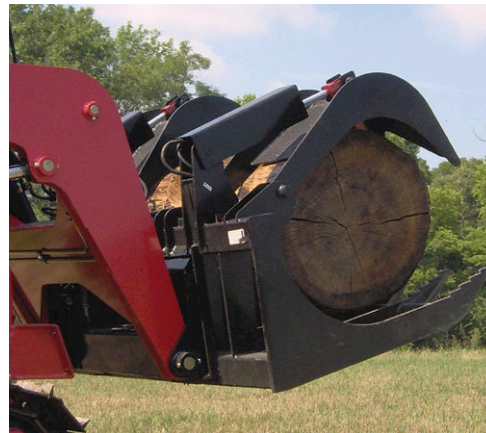

Technical Description:

Designed with a ridged frame and serrated front tines for ripping and grabbing, AHWI HD Series grapples are excellent for clearing brush and removing debris and logs.

Three models are available to suit your skid steer's power characteristics.

Generous width with 940 mm opening, plus dual independent arms make the grapple perfect for grabbing and holding awkward shaped material. The open design allows good visibility for the operator.
