

SH Series Stump Grinder

Applications:

- Forestry
- Municipal
- Landscaping
- Site-preparation

Functions:

- Economic and efficient grinding of all types of stumps
- Grinding stump rows
- Stump grinding in orchards, parks and gardens

Technical Description:

Now you can turn your skid steer into a super efficient stump grinder. Mounting is quick and easy - the unit simply attaches to the universal mount, then hoses and the single electrical connector attached. All functions are controlled by the skid steer's joystick buttons.

The SH Series stumpgrinders are designed for mounting on skid steers from 34 to 75 kW. With sweeping and tilt functions and a brutally effective grinding wheel, root balls can be ground out within minutes. SH240 and SH260 models are fitted with a telescoping function for back and forth grinding in confined spaces.

Technical Data:

Model	SH240NT	SH240	SH260
Weight	555 kg	680 kg	745 kg
Dimensions (L x W)	1600 x 1525 mm	1605-1905 x 1525 mm	1780-1955 x 1525 mm
Work zone (W x D)	1400 x 455 mm	1700 x 610 mm	1780 x 610 mm
Wheel diameter	610 mm	610 mm	660 mm
No of tools	24	24	32
Hydraulic power	41 – 48 kW	34 – 48 kW	56 – 75 kW
Flow/pressure	95 – 150 L/min@ 207 – 293 bar	95 – 150 L/min@ 207 – 293 bar	115 – 17 L/min@ 207 – 293 bar
